

HOW YOU CAN CREATE A: TRAVEL DEPARTMENT

MySabre

CORPORATE WINDOW OF SAVINGS!

Sabre / *Travel Network*

MySabre - The Corporate Booking Portal

- *MySabre*, based on patented Sabre technology and fortified with Yahoo!, is a Web-based booking portal that integrates all the travel information needed, including the *Sabre*[®] global distribution system – right from one desktop.
- Its intelligent technology delivers relevant content, and web merchant sales opportunities through interactive offers.
- Intelligently integrates your traditional travel agent *Sabre* system booking tools with Web fares, user friendly booking tools and deeper/localized content.
- It gives you access to all receipts for travel expenditures before and after travel.
- Each traveler has a personalized profile that makes it easy to include all relevant information such as Frequent Flyer numbers, Hotel guest ID's and any other important information.
- More importantly it gives you control on all travel throughout your organization.
- Streamlines all travel to one person/department, with support from Community World Travel, at the same cost as booking on the internet.

MySabre – Features and Benefits

- Streamlines the booking process with fast, reliable technology.
 - *User Friendly* booking menus.
 - *Point and Click* technology within the *Sabre* portal.
 - *Sabre Vacations* access.
 - *Last minute fares*.
 - Everything is located together right on the desktop!

The screenshot displays the MySabre web application interface. On the left, a sidebar titled "Booking Tools" lists various services: Sabre system, Sabre with Point & Click, Car, and Customer tools. The main content area shows a Sabre terminal window with flight search results. On the right, a box labeled "Integrated Sabre System" points to the terminal output.
